The Editors of *Etica & Politica/Ethics & Politics* have taken every possible measure to ensure the quality of the material here published and, in particular, they guarantee that peer review at their journal is fair, unbiased and timely, and that all papers have been reviewed by unprejudiced and qualified reviewers. The publication of an article through a peer-review process is intended as an essential feature of any serious scientific community. The decision to accept or reject a paper for publication is based on the paper's relevance, originality and clarity, the study's validity and its relevance to the mission of the journal. In order to guarantee the quality of the published papers, the Editors encourage reviewers to provide detailed comments to motivate their decisions. The comments will help the Editorial Board to decide the outcome of the paper, and will help to justify this decision to the author. If the paper is accepted with the request of revision, the comments should guide the author in making the

revisions for the final manuscript. All material submitted to the journal remains confidential while under review.
